## TREAT YOURSELF RIGHT THIS SUMMER

The snow has melted, the birds are chirping, and the flowers are blooming. Spring has come and summer is on its way! With all these wonderful sights, is your house still one to be avoided? It's time you finally do something about that yard and make it the envy of the neighborhood.

With a line of credit, you're only one step away from turning your backyard into a summer paradise. Maybe it's a new in ground pool, the garden of your dreams, or even a deck to rival your neighbor's. Whether it's our Infinity Line of Credit or a Home Equity Loan, your summer paradise will be in your budget.

Some benefits to having a line of credit include:

- Borrow larger sums of money at a low fixed rate
- Low minimum payments
- Instant cash
- Use funds for any purpose, again and again

Fire Police City County Federal Credit Union can help you with any project this summer. Our lines of credit are great tools for when you need that extra cash for a household project, an emergency purchase, and anything life has to throw at you. Fill out an application today by visiting our website at [www.fpccfcu.org](http://www.fpccfcu.org)!

## SUN, SAND, AND SAVINGS

A Vacation Club is the best way for you to set money aside for that once in a lifetime trip to a tropical island, or even to fulfill your big city dreams. Next to planning an itinerary, finding the funds is the hardest part of a vacation. Luckily for you, we can help you get out of Dodge and have your feet buried in the sand.

With summertime right around the corner, is a family vacation in your budget or will it be just another year spent in Fort Fun? Stop in at any of our branches, or give us a call at (260) 484-2102 to get your summer started off right!

## DON'T TAKE THE BAIT

For some people, summer marks the start of fishing season. But for scammers, phishing season never ends. Phishing is when a scammer sends a fraudulent email disguised as a professional business in attempts to obtain your personal information. These emails are designed to resemble well known businesses or websites you may associate with and include messages that try to coax you into giving them what they want.

The following tips will help you identify these malicious emails and stay safe:

- Check for frequent spelling errors
- Ignore threats of account closures or data breaches
- Do not take action if you were not expecting the email
